

Keeping you safe at
Mickley Village
Primary and Nursery
School

Staff in our school want to make sure all our pupils are happy and treated well and fairly by everyone

We notice when children are not happy and we listen to their worries

We help when children need help and support

We might tell another person who can help to make things better.

You can tell us if you are worried about something that happened at home

You can tell us if you are worried about something that happened at school.

You can tell us if you are worried about something that you saw or that happened on the internet

There are lots of people in our school who have had special training to try to help you feel safe. You can talk to the adults at home or your friends. You can always talk to one of these people.

Mrs Gregg

Mrs Elliff

Miss Street
